Susan A. Scaria has 20 years of experience handling matters involving construction site accidents, negligent security claims, premises liability, municipal liability, medical malpractice claims and contract disputes. Her zealous representation has led to the dismissal of labor law claims against her clients, and her appellate advocacy has garnered favorable outcomes that facilitate settlements in high-exposure cases. Susan's clients include leading New York property owners, contractors, subcontractors, and construction managers, who she defends in significant actions in lower and appellate courts. Her clients are located throughout New York City's five boroughs, Long Island, Westchester, Rockland, Orange, and Upstate New York. Susan started her career with an insurance defense firm, working on complex labor law, premises liability, security premises liability, medical malpractice, and professional liability cases. She then started a defense practice, where she continued to defend contractors, property owners and security companies in high-exposure cases involving personal injury, professional liability, property damage and contract disputes. Susan is recognized as a thought leader in her field and is OSHA-10 certified. **Representative Matters:** *Alvarado v.
